

## Principal's Report To School Council

January 5, 2022  
7:00 p.m.

Ted Zarowny  
Principal  
New Horizons School

---

### Traffic

- We are still struggling with traffic congestion and unsafe driving practices.
- The traffic management plan will be emphasized in the next eNews and emails.
- Any suggestions to help entice drivers to follow the Traffic and Parking Management plan would be welcome!

---

### Staff Interviews to Begin

- The pre-Christmas rise in COVID cases delayed the start of staff interviews
- They will begin when school returns
- Questions:
  - When you were in elementary school, what did you want to be when you grew up?
  - What was the best vacation you ever took and why?
  - If you could only eat one food for the rest of your life, what would it be?
  - Do you have any pets? Tell us about them!
  - What's your favorite way to spend a day off?

---

### COVID-19

- Current NHS COVID plan is still in effect.
  - Key Things to Remember
    - Keep children at home until they are no longer symptomatic.
    - Parents of children who are symptomatic will be asked to pick up their child if they are symptomatic at school.
    - Classes will be sent home for remote learning if a positive case is identified in the classroom.
- No new guidance from AHS has emerged other than schools will be tracking cases and doing their own contact tracing.
- The Government of Alberta will be supplying rapid tests and masks to schools, starting the week of January 10. Two 5-test kits will be supplied to each student and staff member (five weeks of testing). The first kit will be supplied by the end of next week.

---

**School Information Night: January 12**

- Thank you, Elizabeth, for your assistance by speaking on behalf of School Council.
