#209 School Fees

POLICY STATEMENT

The Board of Directors believes that all students should have fair, equitable, and affordable access to the basic resources and materials required for publicly funded education as provided by the Government of Alberta. The Board further believes that, to the extent possible, these basic resources and materials should be provided at no cost to parents or students.

At the same time, the Board understands that it has a duty to provide quality programs for and services to students. Moreover, the Board acknowledges that the Education Act permits a board to charge a parent of a student fees with respect to specified supplies and services.

Finally, the Board believes that its practices related to school fees must reflect the principles of clarity, transparency, fairness, and accountability.

In accordance with these beliefs and understandings, as well as with the provisions of the Education Act, the Board of Directors authorizes the establishment and collection of fees, as prescribed in and limited by the Guidelines associated with this Policy.

The Superintendent of Schools is responsible to develop and implement administrative procedures that are consistent with this Policy.

POLICY STATEMENT

The Board of Directors is committed to providing students and staff with a welcoming, caring, respectful, and safe learning and working environment that fosters a sense of belonging, nurtures a positive sense of self, respects diversity, and promotes well-being in all its aspects.

In accordance with this commitment, the Board does not condone behaviours that constitute bullying, harassment, sexual harassment, discrimination, or violence, and expects allegations of such behaviours to be investigated and addressed in a timely and thorough manner, as warranted by the circumstance.

Further, the Board affirms the rights, as expressed in the *Alberta Human Rights Act* and the *Canadian Charter of Rights and Freedoms*, of each student enrolled in the school and each staff member employed by the New Horizons Charter School Society. #211 Video Monitoring

BACKGROUND/PURPOSE

In accordance with the Freedom of Information and Protection of Privacy Act (FOIP Act), only personal information collected by a video surveillance system to support the safety of staff and students and the security of schools and facilities may be used. This includes use in an investigation that could possibly lead to disciplinary (both student and staff), legal, legislative or law enforcement purposes; enforcement of administrative regulations; or for a consistent purpose; or in accordance with a court order.

“The purpose of this Policy is to clearly communicate the purposes for and uses of video surveillance at or within New Horizons Charter School (the “School”), and of video and audio surveillance on its school buses.”

POLICY STATEMENT

Video surveillance systems may only be used where conventional measures for achieving law enforcement or public safety objectives, such as increased staff supervision or security guard patrol are substantially less effective or are not feasible, and the benefits of video surveillance substantially outweigh the reduction of privacy inherent in collecting personal information using a video surveillance system.

GUIDELINES

A. Rationale Required To Request Video Surveillance Systems

1. To request approval for the installation, replacement or expansion of a video surveillance system, a principal, transportation manager, or a senior administrator shall submit a written rationale to the Superintendent including but not limited to:
 - a. verifiable, specific reports of incidents of crime, vandalism or safety and security concerns
 - b. examples of other measures of deterrence or detection that have been used or considered, and the reasons why those measures are less effective or not effective for the concern being addressed
 - c. results of consultation with staff regarding the necessity of the proposed video surveillance system in the school or facility
 - d. the identification of the location(s) of the proposed video surveillance camera(s) to provide viable measures of deterrence or detection
 - e. plans for the design and operation of the proposed video surveillance system that minimize intrusion on personal privacy.

B. Installation of Video Surveillance Systems and Retention of Records

1. Any video surveillance system connecting to the network must meet New Horizon School’s information technology standards as identified by the Superintendent.

2. Video surveillance cameras must not be used to monitor areas where individuals have a reasonable expectation of privacy including, but not limited to, change rooms and washrooms.

C. Authorized Access To Video Surveillance Systems

1. Physical access to the digital video recorder is restricted to the principal, superintendent, secretary-treasurer, or a senior administrator. The video surveillance system recordings may only be reviewed by the principal, superintendent, secretary-treasurer, or a senior administrator when a specific incident or event occurs that requires an investigation.
2. There must be at least *two* authorized personnel present while reviewing.
3. Examples of circumstances that would merit a review of video surveillance recordings include, but are not limited to:
 - a. incidents of safety and security that have been reported or observed
 - b. for disciplinary, legal or legislative purposes
 - c. for a law enforcement matter.
3. Video surveillance system recordings can be shared with law enforcement if the school is presented with a warrant, or if the school has experienced vandalism, break-in, or other situation it is investigating.
4. In emergent situations where the issue is time-sensitive, the Board Chair or designate can suspend this policy.

D. Right Of Access Under The *FOIP Act*

1. An individual whose personal information has been collected and recorded by a video surveillance system may request access to their own personal information in accordance with the *FOIP Act*.
2. Any individual may request access to a video surveillance system recording or an extracted recording in accordance with the *FOIP Act*.
3. In the event of a lock down procedure, the principal, superintendent, transportation manager, or a senior administrator, or the person responsible for a school or facility, or law enforcement officials may have real time video surveillance access to the video surveillance system. Such access to real time video surveillance through the video surveillance system software shall be secured by username and password and shall only be used during a lockdown procedure.

E. Real Time Monitoring of Video Surveillance System

1. Active surveillance of the entrances is in place in order to ensure the safety of our students as there are not more effective or less obtrusive means of accomplishing the same level of safety and deterrence goals.

SUPERINTENDENT EVALUATION PROCESS, CRITERIA AND TIMELINES

Evaluation Process

1. Provides for accountability professional growth, and the strengthening of the relationship between the Board of Directors and the Superintendent. The written report will affirm specific accomplishments and will identify growth areas. Some growth goals may address areas requiring improvement while others will identify areas where greater emphasis is required due to changes in the environment.
2. Highlights the key role of the Superintendent as the Chief Education Officer for the Division to enhance student achievement and success for all children.
3. Recognizes that the Superintendent is the Chief Executive Officer. The Superintendent is held accountable for work performed primarily by other senior administrators, e.g., fiscal management.
4. Emphasizes the need for and requires the use of evidence for evaluation purposes. Evaluations are most helpful when the evaluator provides concrete evidence of strengths and/or growth areas. Appendix B identifies the specific quality indicators for which evidence will be sought during the evaluation process.
5. Meets contractual requirements in that the Superintendent and Board came to a mutual agreement relative to the comprehensive evaluation process to be followed.
6. Is aligned with and based upon the Superintendent's roles and responsibilities. The evaluation document is consistent with the Role of the Board in Policy.
7. Is linked to the Division's goals. The Strategic Planning and Reporting section directly links the Superintendent's performance to the three-year planning process, which includes the Charter School's goals.
8. Sets out standards of performance. The quality indicators in the Performance Assessment Guide set out initial standards. When growth goals are identified, additional standards will need to be set to provide clarity of expectations and a means of assessing performance.
9. Is also a performance-based assessment system. Such an evaluation focuses on improvement over time. The second and subsequent evaluations take into consideration the previous evaluation, and an assessment of the Superintendent's success in addressing any identified growth areas.
10. Uses multiple data sources. Objective data such as audit reports, Alberta Education reports, and student achievement data are augmented with subjective data provided in surveys.
11. Elicits evidence to support subjective assessments. This must be the case when the Board provides feedback regarding Board agendas, committee and Board meetings, etc.
12. Ensures Board feedback is provided regularly. Such feedback will be timely, provided at least annually, supported by specific examples, and will focus on areas over which the Superintendent has authority.

Evaluation Criteria

The criteria for the first evaluation will be those set out in Appendix B, the Performance Assessment Guide. In subsequent evaluations, the criteria will be those defined by the Performance Assessment Guide as listed or revised after each evaluation, plus any growth goals provided by the Board in previous written evaluation report(s). Such growth goals may be areas requiring remediation or actions which must be taken to address trends, issues, or external realities. The Role Expectation “Leadership Practices” will be included as determined by the Board. An external consultant will normally collect data relative to leadership practices by interviewing the Secretary Treasurer, Principal and Vice Principal. “The Board shall determine those to be interviewed prior to each evaluation.

Appendix B is the Performance Assessment Guide, which is intended to clarify for the Superintendent performance expectations held by the Board of Directors. This guide is also intended to be used by the Board of Directors to evaluate the performance of the Superintendent in regard to each role expectation. The Board of Directors will review the indicated evidence and will determine whether, or to what extent, the quality indicators have been achieved.

The Superintendent will provide evidence materials to individual Directors and to the facilitator at least one (1) week prior to the evaluation session. The purpose of the evidence information is to provide proof that the quality indicators identified in Appendix B have been achieved. Therefore, evidence will be organized under each quality indicator.

An evaluation template will be provided by the facilitator for use at the evaluation session. The Board of Directors and the Superintendent will be present. The Superintendent will be invited to ensure the Board has full information and may choose to enter into discussion to ensure the evidence provided has been understood. The Superintendent may be asked to leave the room when the Board develops the growth goals/areas for emphasis during the coming year and the conclusion section. The evaluation report will be composed during the evaluation session and will reflect the corporate Board of Directors position. The evaluation report as developed will be approved by Board motion and signed by the Board Chair on behalf of the Board of Directors.
